

THE RIDER

More than a decade of experience enables Brian to direct your coworkers into unpredictable and out of character performances. The guests on stage and in the audience must be able to understand clearly what is being said on stage.

So, where the equipment is not being provided by the Powers of the Mind management, please ensure that the requirements below are fully understood.

Sound Requirements - These requirements are essential to the success and quality of the performance.

- ✧ **Professional quality PA system with sound to appropriately cover venue size and number of attendees.** (In-House Sound Systems are not acceptable unless approved by Brian or Management)
- ✧ **One Handheld UHF wireless microphone of professional quality.** (i.e. Shure, Audio-Technica)
- ✧ **One 1/8th inch mini stereo connection to connect sound from Brain's Laptop computer.**

Staging Requirements

- ✧ **Staging/Risers must be 16' deep x 24' wide with curtains or pipe and drape across the back.**
- ✧ **Fifteen chairs placed on center stage.**

Lighting Requirements

- ✧ **Lighting should adequately light the entire stage area with even disbursement** (House lighting is acceptable in most cases)

Important Notes

- ✧ **Sound check must be available and take place prior to guests arriving.**
- ✧ **Duration of the performance is approximately 90 minutes.**
- ✧ **It is strongly recommended that guests are not given a "break" prior to the show.**
- ✧ **The participants strictly volunteer only and are not pre-picked/pre-arranged.**

Now sit back, relax - it's all complete. Enjoy the show!
